

# INTERNATIONAL RELATIONS

Most policy same, increase global +African impact, grow economy

- Strengthen alliances developing countries, reform global institutions
- Cooperation with progressive forces in Africa and the world.
- Build relationship + trade with BRICS countries + African continent.
- Maintain good relationship with major trade partners from developed countries (USA, Europe, Japan), push for fair trade and investment.
- Work for peaceful, democratic Africa, human rights, and rule of law.
- Push Morocco to recognise Western Sahara, support Palestinians
- Discuss SA voters abroad and how to organise them.
- International Criminal Court set up to prosecute gross violations of human rights where countries lack independent courts. Most powerful nations not signed. African countries concerned about prosecutions that ignore local efforts to make peace. Some considering withdrawal. AU must urgently capacitate African Court on People and Human Rights as alternative to protect Africans against human rights abuses, if we wish to withdraw
